The Mediterranean Diet Benefits in a Bottle!

OliPura® | ADVANCED

Supports Heart Health, Joint Health & the Body's Natural Response to Inflammation

Supports the body's fight against chronic inflammation, which is believed to be a driver of coronary heart disease, cancer and many other immune system disorders. OliPura® Advanced has been clinically evaluated and shown to significantly reduce CRP, a marker of inflammation, and reduce joint pain among patients taking aromatase inhibitors.

Why Take OliPura® Advanced?

- Anyone who wants premium and broad support for heart, joint, breast, and their immune system health.
- Customers with chronic inflammation, osteoarthritis or who need clinically proven reduction in their CRP levels after cancer, should consider OliPura® Advanced.
- If your customers are looking for the complete 3-in-1 approach to reducing Inflammation, joint pain, and improved cardiovascular function.

What Makes OliPura® Advanced So Different?

- Powerful formulation of ingredients that are clinically proven to reduce joint inflammation, swelling and stiffness.
- Therapeutic levels of olive polyphenols (hydroxytyrosol, tyrosol & derivatives), are combined with curcumin and boosted by black pepper extract which increases the bioavailability and absorption of the polyphenol ingredients.

What Are the Key Active Ingredients?

- TrePhenol® is a powerful blend of polyphenols (particularly hydroxytyrosol, tyrosol and derivatives) extracted by a patented process that produces an anti-inflammatory response in the body and can support the body's natural immune response.¹
- 100% Alaskan fish oil with high levels of EPA, DHA, the two most critical ingredients in the Omega-3 complex.
- Curcumin: A powerful antioxidant, anti-inflammatory agent, also known to help in anti-aging.¹

Supplement Facts
